Great Precautions Taken in ONE OF REGENTS Belgrade and on Route to Royal Jugoslav Tomb at Topolo to Prevent Any Attack on Visiting Kings Or Other Notables

#### Throngs on Knees As Casket Passes

By CHARLES M. MEISTER Copyright, 1934, by the Associated Press Belgrade, Oct. 18.—The body of the murdered King Alexander was d to-day near those of his ancestors in the Royal Memorial Chapel in

Royal Memorial Chapel in his native city of Topolo. While fifty men bore the sacrophagus up a hill through three-lined lanes to the chapel all activities throughout Jugosiavia remained at a standstill for two minutes as the common-people paid tribute to their failer king.

Then, as the body was laid in the tomb the late King had only recently completed, church belis were tolled throughout the country. They mingled strangely with heavy guns on land and sea which roared out a mighty dirge.

and and see which roared out a mighty dirge.

Trumpeters sounded farewell "taps" for the dead soldier sovereign.
"Mignon," as Alexander called his wife, Queen Marie, took leave of her coyal consort and the doors of the somb were closed.

Thousands of mourners were need back by troops standing shoulder to shoulder as the funeral train passed from Beigrade to Topolo. Only children were allowed on the right side of the route, enabling troops to supervise more efficiently the activities of adults on the left.

Spectators were not allowed to carry canes or umbrellas, deaptie a drizzling rain. An atmosphere of terror prevailed, lest enarchists attempt to take the lives of the three kings in the funral cortege—Little Peter II, son of the late King Alexander, Carol of Roumania, his uncle, and Boris of Bulgaria.

Secret service agents made many tartests as they mingled among the crowd, seeking firearms and bombs.

CROWD KNEELS

A mighty massed assemblage fell to

### DEATHS FIFTY

Manila, P.Q., Oct. 18. — Luzon Island's dead and missing from Tuesday's typhoon reached fifty of more to-day as belated reports from doastal towns were received in Manila.

Many were believed lost in the sinking of small craft at sea because of the lack of warning.

More than \$1,000,000 has been allo-cated to aid the distressed.

CROWD KNEELS

A mighty massed assemblage fell to their knees on the cold bare pavement as if by one impulse as the flag-draped sacrophagus of the warrior king whose grandfather. "Black George," was slain by Turks, passed through the main streets of the capital.

In one voice they murmured a benediction on their slain ruler.

Negligent, Says English Jury, But Death of Woman Not Manslaughter

Canadian Press
London, Oct. 18.—Police have laid no charges against Lord Edward Montagu, youthful scion of the Duke of Manchester, following the verdict state coroners inquest into the death of an aged woman who was struck by a car driven by Lord Montagu.

The young nobleman has farmed in the Canadian west and married an Alberta girl, Norah Macfarlane Potter. He was mixed up in the Wanderwell cruise murder mystery in California, and has seen adventure in

manslaughter.

Miss Sarah Walker, aged sixtyseven, died in a hospital two weeksago from injuries received. Lord
Montagu testified the woman dashed
across the street in front of his car
and he could not avoid hitting her.
He said he was not traveling more
than thirty-four miles an hour.

The coroner pointed out to the jury
no one had alleged the driver was intoxicated.

### TRAPPED DOG

Greenville. Ind., Oct. 18.—Mitzi came back into the sunlight vesterday from the depths of a limestone cawe after a band of seventy farmers had worked for days to extricate her.

Missing since Wednesday of last week the plight of Mitzi, a foxhound owned by Theodore Weisenberger, a farmer, was discovered Saturday. From then until Tuesday evening a little band of farmers worked diligently with picks, drills and dynamite to give Mitzi back her freedom. But Mitzi came out under her own power. Early yesterday Weisenberger heard whines and a cratching sound at his door. It was Mitzi, feeble and worn, but with a friendly, tall-wagging greeting. The dog apparently chassed some other animal time the coverage of the results.

### **URGES POLICE BE CLEAR OF POLITICS**

should be given adequate protection by their respective provincial governments, he said.

According to General MacBrien, men wishing to qualify for promotion in the Royal Canadian Mounted Police work in all its many branches as well as men of broad practical experience. In this connection he announced that an officer was soon to be appointed who would be in charge of training and who would act as an assistant to himself. This officer would travel abroad, rub shoulders with police officers in all corners of the globe, and return with the concentrated experiences of foreign and other Canadian police forces.

BECOMES AMBASSADOR

Shanghal, Oct. 18 (Canadian Press from Havas).—The Chinese government to-day appointed Liu Wen-tao ambassador to Italy. Liu has been individually and the post of minister pleni-potentiary, and the raising of his arank follows the recent decision of tally and China to transform their legations into embassies.

When special glass used to pass ultra-violet rays becomes too opaque, it can be treated with heat and brought back to normal again.

### "King Kong" Of **New York Dead**

IS SET FREE Willie Smith, Giant Negro, Stabbed; Police Hold Colored Woman

Canadian Fress

New York. Oct. 18.—Black Harlem, is burdened with black gloom to-day. The "King Hong" of New York's negro belt, Willie Smith, who reputedly whipped fifteen Italians when he had a broken finger, is dead.

Police said Mary Williams, twenty-five-year-old colored woman, admitted plunging Willie's knife between his ribs and into his stomach Tuesday night. They held her for a homicide hearing. They said they could not learn the reason for the killing.

Harlemites pointed out that Mary was Willie's former sweetheart. They emphasized "former" and could not understand why any other motive for the slaying was necessary.

Willie stood six feet eight inches and his fighting feats made him a hero in the colored colony.

They said he only used his bare hands—they were as big as footballs and were suspended on arms that dropped them almost to his kneesone night he outslugged fifteen Italians in a street brawl. They also spoke admiringly of the time he beat a longshoreman, only to have the latter fracture the colored giant's skull with a two-by-four beam. They said Willie staggered a little from the blow of the beam, then walked to a hospital. In three weeks "he was good as new."

Police knew Willie well. They said came that Willie was in trouble they always sent four policemen to bring him in. Canadian Press
New York, Oct. 18.—Black Harle

### What Is Colitis?

A Disease of the Nerves

Colitis may be described as
A more serious form of nervous indigestion.
The patient is usually thin and anaemic,
And suffers from indigestion,
With constipation and diarrhoea alternating.
Fearing indigestion and pains in bowels,
He becomes fussy and worried about what he
eats.
He is nervous and irritable and sleepless,
And takes a gloomy view of life.
The treatment called for
Is Dr. Chase's Nerve Food.
The digestive and excretory organs have failed
For lack of nerve force,
The power which runs the machinery of the
body.
This treatment puts iron into the blood.
Through the circulation of the blood
New vigor and energy is carried to every organ
of the body.
The natural functions are restored
And soon you are feeling fine.

#### B.C. Egg Laying Contest Near End

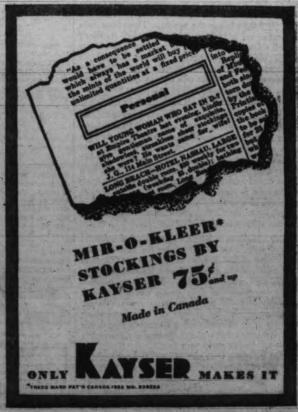

Canadian Press

Agassiz, B.C., Oct. 18.—Not more than six birds will pass the 300-egg mark in the annual egg-laying contest now in its last week at the Dominion Experimental Farm here. Last year, Derreen 10L, a white Leghorn pullet, equaled the world record with 357 eggs in 365 days.

The pen of W. M. Pairweather léads the current contest and is expected to win.

Montreal, Oct. 18.—Officials of this city will have to find other means of transportation than civic automobiles.

#### THE LAW FORBIDS ANYWAY

MR. E. W. BEATTY, PRESIDENT OF the Canadian Pacific Railway Company, argues that if his organization were to be amalgamated with the Canadian National Railways, an annual saving of about \$75,000,000 could be effected. Hon. C. P. Fullerton, chairman of the Board of Trustees of the Canadian National Railways, told a gathering of business leaders in Halifax yesterday that he not only thought that amalgamation would be inimical to the public interest, but also implied that Mr. Beatty had considerably overestimated the amount of saving that considerably overestimated the amount of saving that would be possible if the two systems were merged. He is of the opinion, however, that all that could be saved by amalgamation could be saved by co-ordination if the railways honestly co-ordinated their efforts.

The amalgamation of the two railroads is prohibited by an act of the Canadian Parliament sponsored by the present government in 1932. In spite of this the idea is being continually urged in certain quarters—some of which significantly enough are telling the Canadian people that Canada should have a national, or coalition, government. The law deals with the one proposal and the people will deal with the other when they are given an opportunity of expressing themselves at the polls; then they will choose between Mr. Bennett

Mr. Fullerton told the Halifax business leaders when Mr. Beatty said \$75,000,000 could be that when Mr. Beatty said \$75,000,000 could be saved annually by amalgamation, he spoke, not from his own knowledge, but from what his officers told him, and used figures for 1930, when economic conditions were vastly different from what they are today. Canadian National officers had said it could not be more than \$15,000,000. "If the railways wished to proceed ruthlessly they could, of course, cut down expenses," Mr. Fullerton feels, "but it would mean dismissing men, reducing services, abandoning lines and putting men out of work." It will not be lines and putting men out of work." It will not be argued seriously that the Canadian people are in any od to stand for that at this stage.

Despite criticism, Mr. Fullerton continued, spending on the Canadian National had reduced the costs of operation. In 1920 the road had an operating deficit of \$30,000,000. From 1923 on there were no operating deficits and from 1928 on the system and the interest on its paid its operating expenses and the interest on its bonds. When the slump came the revenues were cut in two, but that was true of railways all over the continent. The Canadian Pacific was in precisely the same position as the Canadian National and had to go to the government for assistance.

It is well to consider what the Beatty policy would mean to those areas which have been developed be-cause transportation has been provided for them. Towns have been established. Capital has been invested in them in good faith and their very existence depends upon railway service. Who would compensate their citizens and the industries which have been established? What would be the economic effect upon established? What would be the economic effect upon the country's business with the large number of employees who would be thrown out of work on both systems if the two were amalgamated? Reduced purchasing power alone would be serious and indi-rectly would cause still further unemployment. The government, too, would feel the effect from the lower return from taxation.

#### MORE BY-ELECTIONS

INLESS PREMIER BENNETT SHOULD Ottawa there appears to be little prospect of a general election before next year. Within the next month we is a suggestion that the next session of Parliament will open about January 10. That would mean dissolution in the late spring or early summer in the ordinary

It is intimated, moreover, that the three by-elections which will be necessary to fill vacancies caused by the death of two Conservative members and one Liberal will be fought before the session. The vacant constituencies are in Halifax, where Hon. W. A. Black scored a Conservative victory in the general election of 1930 with a majority of 2,172; in Long Lake Saskatchewan, where Dr. Walter Cowan won the seat for the Conservatives with a majority of 205; and in the St. Denis division of Montreal, where the Liberal majority rolled up by Dr. J. A. Denis was 14,264.

It would appear that the best the government can do in these contests is to retain the Halifax and Long Lake seats; but it would be safe to say that even the most optimistic members of the party would hesitate to take a bet on it after what happened in the five Ontario by-elections last month—and, of course, both Nova Scotia and Saskatchewan provincially are overwhelmingly Liberal, that party holding twenty-two seats out of a total of thirty in the former, while in Saskatchewan the Conservatives failed to elect a single member at the general elections last June.

Mr. Mackenzie King. as leader of the federal liberal party, quite properly takes the stand that the overnment of Mr. Bennett has lost the confidence of the people and has no right to meet Parliament before accounting for its stewardship. It has been in office rearly four years and three months and it has failed alserably to fulfill the promises upon which it was lected in 1930. But if there was any doubt about the state of its political stock it was made abundantly lear last month that even in traditionally Conservative Datario it had dropped very low.

On his return from abroad, Mr. Bennett ought to lear up urgent outstanding business and ask for dissolution. Postponement of the constitutional conservative for a month or so would not do any harmand it is immaterial whether Mr. Bennett or Mr. King peaks for the Dominion at that gathering.

#### ONLY ONE FAILURE

SCOTLAND YARD HAD ONLY ONE unsolved murder during 1933, a year which in all probability, will be recorded as the most memorable in the history of London's Metropolitan Police Force, according to The Canadian Police Gazette.

Throughout the year there were twenty-one ders in England, fifteen of them occurring in the first half of the year.

On one or two occasions during the year gun

made their appearance, but their careers were brief and their sentences long, one receiving fourteen years penal servitude for shooting at a policeman.

Although the policies of Lord Trenchard, Commissioner of Police, have been violently assailed and ridiculed in the press and by caricaturists, progress has been made with his unique schemes of reor-

#### WHAT OTHER PAPERS SAY

DEMOCRACY AND THE PRESS
The Winnipeg Tribune

Eight-ninths of the world's population are under serious restrictions as to free speech. Only one-ninth, or roughly some 225.000,000 persons, live in countries where newspapers are without formal censoriship. Hardly anywhere outside of English-Speaking countries to-day are newspapers free to criticize governments. Freedom of the press has survived in English-speaking nations because democracy has survived.

SOME STAGGERING FIGURES
The Vancouver Province

Revenue has been falling off seriously in all the Canadian provinces and so the weight of the debt charges is being felt more and more. Even the Dominion is feeling the load. According to a statement on Canadian finance just prepared by A. E. Ames & Co., the debt charges of the Dominion account for 42.2 per cent of the Dominion's revenue and those of the provinces for 33.2 per cent of provincial revenue. New Brunswick's debt accounts for the highest percentage, 55.4. Manitooba's accounts for 50.1 per cent and British Columbia's for 43.5. In dollars, the Dominion debt casts the country \$129,503,635 for interest and \$4,171,727 for retirement. British Columbia's bill is given as \$7,007,606 for interest and \$1,243,000 for retirement. On a per capita basis, Dominion debt takes \$12,50 a year from each man, woman and child in the country, and provincial debt an average of \$5.10. British Columbians have a per capita debt charge of \$11.85 to meet each year.

grater turnover of commodities. The most important increase took place in the case of hardware, dyers and cleaners, furniure, music and radio, whereas the value of commodities wild by the restaurants during the first seven months of 1934 was actually smaller than during the same period in 1935. It is, of course, impossible to state with any degree of accuracy the extent to which the above figures reflect the increase in prices.

It is known that there have been numerous gains in prices of hardware and that the cleaning and dyeing industry during the past year was not as adversely affected by keen competition as during the previous years. While it is evident that a part of the increase is the result of higher prices, yet it is generally considered that to a considerable extent the increase in the value of retail sales during the first seven months of the present year reflects an accrease in the value of retail sales during the first seven months of the present year reflects an accrease in the canda wens to be to commissent at with the Unifed States on the twouls that the moment in Canada sems to be to commissent at with the Unifed States on the twouls that the Policeman in the centre of the street, and said very quietly, but with a world of pent-up emotion, "Nerts!"

### W.C.T.U. HOME **NAMES BOARD**

Mrs. Frank Grant New President; Tribute to Mrs. Wm. Grant's Long Service

The annual meeting of the board of directors of the W.C.T.U. Hom

The annual meeting of the board of directors of the W.C.T.U. Home was held yesterday afternoon, Mrs. William Grant presiding. A letter of appreciation was read from the executive of the Provincial W.C.T.U. for the manner in which the board had conducted the home.

The resignation of the assistant matron, Miss Botell, was received with regret. The home committee reported that the position had been filled.

The annual pound party held on October 3, while not so largely attended as former years, brought in a goodly supply of groceries and cash, for which the committee wish to thank those who contributed.

The election of officers resulted as follows: Honorary president, Mrs. William Grant; president, Mrs. Frank Grant; first vice-president, Mrs. W.G. Wilson; second vice-president, Mrs. D. Sabiston; corresponding secretary, Mrs. C. Spofford; recording secretary, Mrs. C. Spofford; recording secretary, Mrs. William Russell; treasurer, Mrs. W. H. Gee. Visiting committee for the month will be Mrs. J. A. Scott

into the matter of Mr. Cathay's untimely demise."

"What's strange about that?" Griff-inquired. "That's my business, you know, a consulting criminologist."

"I understand." Fisher said hastly, but you see, it happens I am attorney for the Cathay interests. I was, perhaps, one of the closest friends Cathay had in this city. I owe everything to him. Naturally, I am quite familiar with his affairs and quite friendly with his widow."

"Yes?" asked Griff.
Fisher nodded and went on, "Under those circumstances I repeat that it is strange that you have been retained to investigate Mr. Cathay's death. Because I happen to know that none of Mr. Cathay's personal representatives has retained you Had they done so, I would, of course, have known of it. Therefore, I can't understand who else would be interested in the matter."

### HOROSCOPE

FRIDAY, OCTOBER 19, 1986

Except at the beginning and the end of the day adverse planetary aspects are dominant, according to astrology. This is one of the times when there may be many pitfails in the paths of business.

Women are well directed by the stars, which seem to aid those who cultivate the homely graces. Food preparation hereomes more than usually important. Diets that are healthful but not costly will be desirable.

that are healthful but not costly will be desirable.

Prices of staples in groceries, meats and all the luxuries for the table will soar-during the winter, which may be exceedingly stormy in many parts of the country after the beginning of the year.

This rule of the plenets is not promising for naval affairs. Legislation will be sought to hasten building of warships, but delays are forecast.

Good news of some sort may be expected late in the afternoon of this day. Cables and telegraph lines will be kept-cables and telegraph lines will be kept-cable and telegraph lines will be kept-cable on with special section. The sum business or pro-resional peters, given business or pro-resional peters, given business or pro-resional peters, given business or pro-resional may be carried on with special section after may be carried on with special section after may be carried on with special section after mightfall.

skin and quite a beautiful back. It like to tell one of my beauty secrets to you," writes a woman in San Francisco.

Aside from the fact that I think her letter most interesting, her formalia clever, I'm so pleased to hear from anyone who has been successful in working out her own beauty problems that I pass the content of the letter on to other readers. It follows:

"Once a week I soak a medium-streed bath towel in a solution that contains one pound of ordinary table sait and a pint of warm water. When the sait towel, i rub myself briskly with the sait towel stimulates circulation in the entire body and when circulation is good the chance are ten to one that the skim will be clear and amooth. Secondly, salt water has long been considered beneficial to health and beauty. However, not many of us can bathe in the ocean the year around and few have time to prepare a sait bath in the tub several nights a week. But we certainly have the time and money for a salt towel of the type that the western woman with the beautiful skin describes.

Mayor Leeming Claims Victoria Has Culture of Its CHANGE RULE Own; Presents Prizes at Annual Social Evening of Victoria Horticultural

"Cars coming into Victoria increased by 37 per cent over last year," declared Mayor David Leeming at the thirteenth annual prize-giving and social evening of the Victoria Hortlcultural Society, held in the A.O.F. Hall yesterday held in the A.O.F. Hall yesterday, evening. "When, compared with Vancouver's Increase of 5 per cent, it shows that there is something in Victoria which draws visitors. That something, I am sure, is the beauty of the gardens, and I think the Victoria Horticaliural Society has largely contributed to this."

During his recent visit to Oregor

and California friends always referred to the wonderful gardens in Victoria, the mayor said. These Americans apped that Victoria would not bedelis out of school when they reached tegisteen.

Protests from several ratepayers's and Parent-teachers' Associations followed, however, and the trustees reconsidered their decision yesterday revening. This will only apply for the present school year and next year the program plan will be enforced.

While the number of students affected in the municipality was small, ratepayers, in meeting the trustees, appointed out the hardship worked on a student in the matriculation year who might reach eighteen after three-quarters of his final year's studies were completed.

The medification was introduced by Trustee A. E. Hull and seconded by Trustee A. E. Hull and seconded by Trustee William Tomes.

CONSCIOUSNESS OF BEAUTY

CONSCIOUSNESS OF BEAUTY IN The consciousness of beauty in flowers was a quality in the minds of the citizens which was a valuable asset to the community, and Mayor Leeming felt that there was nothing finer than people who were interested in gardening instead of "chasing around."

in gardening instead of "chasing around."

As mayor of the city he extended his appreciation to the Victoria Horticultural Society for the wonderful work they had done, and the education they were carrying out.

The mayor then presented the cups and prizes to the various winners. The secretary of the society, F. A. Bosilter, said that it was some ten years ago that the Victoria and District Gardeners' Association had conceived the idea of a garden competition. Since then it had changed a good deal and now there were three classes.

Saanich Trustees Adopt Modification on Recent Policy For Students

Pot Told By T. G. S. Cham-bers to Rotary Club

A motion picture trip through the tea gardens, factories and shipping warehouses of Ceylon formed the subject of an unusually interesting address by T. G. S. Chambers, M.C., representative of the Ceylon Tea Burcau in Western Canada, at the Rotary luncheon in the Empress Hotel to-day.

In his opening remarks Mr. Chamber explained that when the depression struck the Ceylon teap planters they responded by getting together with Dutch and Indian producers in the establishment of teabureaus in England, Canada, United States, South Africa and the Antipodes. Governments implemented the move by legislation, and there was launched a huge endeavor to stimulate greater-use of a commodity which now represents about one per cent of the total world trade.

EXTENSIVE ADVERTISING Saanich school students who turned eighteen since August 22, or who will reach that age between now and next June, will not be affected by the trustees' ruling under the amendment to the Education Act, the school board decided yesterday evening in modifying its recent action.

Under the amendment, which provided for free education to the age of eighteen years, the trustees had adopted the policy of putting all students out of school when they reached eighteen.

#### Clever Little French Girl In Blue Velvet Gowns Brings New Glamour; Makes \$6,000 Week

"Dear Little Lulu" . . , she's intensely emotional about everything.

#### By PAUL HARRISON

NEW YORK, Oct. 18. — It has been a long time since New York has had a chance to sit in cestatic idolatry at the footlights of a glamorous and beautiful foreign star.

Not that there has been any dearth of imported celebrities; and I intend no belittiement of their talents. blades shopping for drehids, and Pract is, however, that they mostly have been dowagers of the theatre, copies of the visitors' gowns.

But now comes Lutiene Boyer. Gentlemen, she sings. Bhe sings in a soft, throaty, just-you-and-I sort of way While singing, she flows here and there about the stage and makes fluttering little gestures. When she sits on a piano you forget that Helen Morgan ever sat on a plano. When she sings in French—snd you don't understand French—you know perfectly well what she is singing about. When the spotlight tightens to a tiny, stabbing heam, you are faintly conscious that she has amber eyes and chestnut hair and wears the bluest of blue vesvet gowns.

### UNDER THE WIDE AND SPREADING SKY

SUMMER is the season when the possibilities for enjoyment are multiplied about you. Under the wide and spreading sky there is room for much happiness.

You don't need great wealth, and you don't need to fasten all your hopes for happiness on a short vacation. Whether you live in the city, with all its modern means of tempering the climate to your needs, or in the country where the good earth responds so beautifully to your touch—there is much to do, pleasantly and

But there is art in enjoyment. You should dress properly for each occasion. You should have within easy reach the things that make hospitality inviting and gracious. You should have the means of refreshing and beautifying your person and improving your sense of well-being. You should be comfortable.

It is not so hard to do all this. It is not accomplished in one frenzied and expensive effort. Comforts should grow about your home, as flowers and fruits blossom and ripen.

Read the advertisements, and acquire the things you need from what you learn there. Fresh light summer wear. Foods and beverages that keep crisp and cool in modern refrigerators. Gas and electricity that cook and brighten without heating your rooms. Electric fans, perhaps. Scaps, cosmeties, and heaps of fresh towels for frequent showers.

And read in the advertisements where to go and what to do in order to make Summer the golden season of your life.

people are likely to envy the pilots their task. The plans of the majority are to spend only so much time on the ground as is necessary for the service of the machines and for conforming with the requirements of the racing committee. After the start from Mildenhall, the competitors will attempt to fly the 2,553 miles to Bagdad without länding. On arrival they will check in at the control office and take in all the fuel their tanks will hold for the next stage to Allahabad, a distance of 2,300 miles. There the process will be repeated, and when Singapore is reached at the end of the next 2,130 miles they will again prepare similarly for the journey of 1,950 miles to Darwin. From there to Charleville is 1,540 miles, and the last lap to Melbourne is only 850 miles.

PHYSICAL ENDURANCE

It is on the two middle stages that

starts on Saturday morning from the new Royal Air Force airdrome at Mildenhall in Suffolk, is being called.

At the end of an 11,323-mile trail a pot of gold awaits the daring filter. 875,000 of it. In fact, the winner will actually get \$3,000 of the yellow metal, fashloned into the trophy donated by Sir MacPheron Robertson, the Australian millionaire contections where the passing of the prize money. The contest has awakened worldwide interest and many nations are listed among the competitors. Air plane manufacturers have been producing and testing their finnest and speedlest craft for the gruelling fight. Many of the world's famous flight. Hand the part. Some have flown the route before. Others are attempting it for the first time.

Two SECTIONS

The race will be conducted in two sections—the speed filers who hope to reach Australia in less than two and a half days, and the handicap event.

The speed entrants need make only five stops on route. The handicap contestants must touch in at twenty-four different points for checking and refueling. Following are the stops and airline distances between each one:

### Dorothy Dix's Letter Box

DEAR MISS DIX—You say marriage offers a good career to a woman even from the financial standpoint. That is true if she marries a man who is a financial success, but it is not true if she marries a poor man, and that is the fate of the vast majority of

women.

I am a woman of forty-five, married to a good average man, but one who is no money-maker. I have always worn cheap clothes, worked hard, had few pleasures. We have no bank account, no car, and Friend Husband carries no life insurance because he doesn't believe in it. If he should lose his position or his life, I would be left stranded. With twenty years' experience as chief cook and bottle-washer, the only position open to me would be that of a domestic servant. That is the answer to your question of why women see red when you write articles about wives trying to hold their husbands' love.

Alice S.

Answer: No one will deny that the lot of the woman married to a poor man who has small earning capacity is a hird one. She must work early and late. There is no thirty-hour week nor holidays for her. Even Sunday, the proverbial day of rest, brings extra labor to her in preparing more elaborate meals and getting the children dressed and off to Sunday school.

She has not the money for fine clothes or for any amusements, yet in spite of these drawbacks marriage is for the average woman not only the career that nature intended her to follow but the one in which she is most prosperous and happiest.

I will say nothing now of the joy that a wife has in the companionship of a husband who loves her. Thank God, there is no price-tag on
that and the poor woman has it more often than the rich. Nor will I
speak of the happiness that a mother finds in her children, nor the reward she gets in seeing them grow up into fine men and women. Nor
will I mention the fact that children are a good financial investment
that pays about a thousand per cent on the dollar in dividends. They
are an old-age pension fund that seldom fails. Look about you and see
how many old parents are being supported by their children.

how many old parents are being supported by their children.

When a woman complains that marriage, viewed from a money standpoint, is a losing venture for the girl who marries a poor man, she is going on the assumption that the girl had some special talents or ability which would have brought her great success in some business or profession. It that were the case, it would be true that a girl who invested her all in marriage to a man who was not a go-getter made an unprofitable bargain. Certainly Greta Garbo can get more money out of a movie contract than she could at washing pots and pans, and it would never have paid Hetty Green to have stayed in the kitchen instead of the accounting room.

But, unfortunately, just the common, or garden, variety of woman has not been endowed by nature with any great talent either financial or artistic. She is no genlus in any line. She is just so-so as to looks and brain and education and energy and initiative, and lacks the qualities that it takes to make a great success in a world in which the competition is keen in every line.

Furthermore the girl has an autility and the children in the competition is keen in every line.

Furthermore, the girl has no vaulting ambition. She has no great drive toward a fixed goal, and even when she does the best that is in her to do it is a second-rate performance. Hence we have the multitude of women in business who just barely make the grade. Stenographers who are slow and fumbling in their work and never learn to spell. Saleswomen who never learn anything about the goods they are trying to sell and who never make a sale unless the customer is determined to buy. Sohool Yeachers who know nothing beyond their textbooks, women who are writers, actresses, singers in the also-ran class.

Hordes of women who barely eke out a poor living by their work and who will never get good pay because they have not the ability to do the kind of work that commands a good salary. Not in a thousand years could these women by their own efforts make enough money to support a comfortable home and keep a little car and lay up something for their

Yet a great many women who marry poor men do attain these comforts by marriage. And that is what makes marriage a good career for a woman, even if she marries a men who is not much of a money-maker. He makes more than she can. He is stronger and better able to work and less likely to lose his job. And she has somebody to depend on.

DEAR MISS DIX. I am a divorced woman of thirty-two, engaged to be married to a very nice man, but I have had an affair with a married man who has a lovely wife and four grown children. He gives me expensive presents, pays for my apartment and takes me out of town on trips, but he seems very anxious to keep our affair from his wife, although he has promised to divorce her and marry me as soon as his youngest son finishes college. I have tried to have his wife hear of his affair with me in the hope she would divorce him so I could marry him, as he could give me much more money than the man I am engaged to can. Do you think this man will ever marry me, or will he go back to his wife? If I marry the other man to whom I am engaged and the wife ever finds out about me and her husband, do you think she will cause me any trouble?

WORRIED.

Answer: Evidently it is your cupidity and not your conscience that is getting you all hot and bothered. Hence I can set your mind at rest on one point, at least, and assure you that you need lose no sleep over the man's wife making trouble for you if you marry the other man. She will be so glad to have you out of the picture that she will never worry you. And, anyway, she is a lady, and the last thing she would want to do would be to involve her husband in a scandal and bring shame upon her children.

Also, though not posing as a matrimonial handicapper. I have a strong hunch that your best matrimonial bet is the single man to whom you are engaged. I am quite sure that the married man has no intention whatever of divorcing his wife and marrying you. Don't bank on that, for it is a hundred-to-one shot that by the time his youngest son is through college he will have tired of you and found some younger and prettier Ladylove.

Virtually all married men who are phllanderers have the same lin her all have wives who do not understand them, or cold and unsyn pathetic wives, and they are pining for a little love. They all speak vaguely of some day divorcing their wives and marrying the women they are trying to persuade into a lisson, and the strange part of it is that there is even a female moron who is credulous enough to fall for this antiquated hooey. For not once in a thousand times does the man have the slightest idea of ever making good on his promises.

He has no notion in the world of divorcing his wife and breaking up his home and separating himself from his children, and of messing up his life in a scandal that will forfeit the esteem of all who know him and injure his business standing.

But I wish it were your conscience, instead of your desire to get the most out of these men, that was worrying you. Then, perhaps, you would see what a dastardly thing you are doing in trying to week the happiness of a sister woman, (Copyright by Public Ledger Inc.)

Trained Animals Hold Spot-light; Comedy Trio Will Round Out Programme

With several cleverly trained animals, "Homer's Indoor Circus" opened its Victoria engagement at the Empire Theatre this afternoon and will show again to-morrow and Saturday. This show has been praised up and down the coast for its many fine animal acts and press critics have said that the programme is something novel and unique and quite entertaining.

Headlight is the leading actor in the show. He is a trained horse that can perform many astounding tricks. He is able to go to a cash register, ring up the money, make change and carry six coins in his mouth at one time.

Beauty and Felix are two hand-

#### Fine Cast At The Columbia

"Come On Marines", the exciting and humorous account of the adventures of members of the Marine Corps, home and abroad, which is now at the Columbia Theatre, was taken from Philip Wylle's thrilling action-romance, "The Pink Chemise," which fan as a short story in Liberty magazine, a few months ago. The story has for its background the Philippine Jungle.

Richard Arlen, Ida Lupino, and Roscoc Karns have the featured parts in the picture, which was directed by Henry Hathaway for Paramount. Grace Bardley, Monte Blus and Toby Wing are also importantly cast. Richard Arlen, as the soft-hearted but ambitious leatherneck, losse his opportunity to enter the officers' scademy, as the result of a "girscrap." As a further humiliation, he is ordered to the tropics for active service.

#### Irene Dunne At Playhouse

Irene Dunne in the RKO-Radio comedy-drants, "This Man Is Mine," is now at the Pisphouse Theatre. Miss Dune is supported by an excallent sast which includes Raiph Bellamy as her straying husband. Constance Cummings as the other woman, Sidney Blackmer, Kay-Johnson, Charles Starrett, Vivian Tobin and Louis Mason, John Cromwell directed the picture, which is an adaptation of the popular stage play, "Love Piles In The Window," by Anne Morrison Chapin.

Also being shown as an added feature is the beautiful musical film, "Waltz Time," featuring the music of Johann Strause and starring Evelyn Lane, the English nightingale.

CAPITOL THEATRE

The shortest sequence in Cecil B.

DeMille's "Cleopatra," showing at
the Capital Theatre, took almost as
long to fifm as the rest of the pitture-pist together, it was learned at
Parametant studies recently.

Following completion of the bulk
of the production, De Mille started to
work on a sequence of short flashes
a showing the final war acenes between
Rome and Egypt. In all, it is only a
few hundred fleet of film, but its
production had to be spread over a
period of three weeks.

### George Arliss Here Saturday

man." George Arlier's new 20th Citury starring vehicle, coming to Capitol Theatre Saturday.

The story, which depicts the aming and eventful efforts of an ecottric but lovable old millionaire choose, a worthy heir among various and colorful relatives, off Arlies another great role and the biant artist achieves another chacterization as rich and complete if in a lighter vein than, his rec'triumph as Nathan Rothschild."

Traffic Light

When the question of installing traffic lights in Victoria again

comes before the City Council to-morrow, the aldermen will hear

another appeal in their favor from Chief of Police Heatley. In a letter filed with the city clerk

a letter filed with the city clerk this morning the chief urges the council to accept the offer of the Canadian General Electric Company to install a stop and go signal at Yates and Douglas Sts. for test purposes, In his letter the chief deals with

Bernard Cantor to Speak on Benefits of New System at Credit Granters' Luncheon

Bernard B. Cantor, Internation-Bernard B. Cantor, internationally famous member of the Re-tail Credit Association of Pert-land, Ore., will be the speaker at the regular weekly luncheon of the Credit Granters' Association of Victoria which will be held at 12.10 o'clock to-morrow in the dining-room of the Douglas Hotel.

Mr. Cantor's subject will be "The Benefits of Pooling Accounts." or the pro-rates system of re-establishing de-linquent debtors. This plan is worked out on the percentage of wages earned, over and above living expenses, and is usually brought into play when the debtor has fallen a victim of the times, or has been sick, or suffered some other misfortune.

This plan has become famous and Mr. Cantor has been called, east to different meetings there to explain the significance of the system. It is regarded, as quite a saviour for merchants and business men, and at the present moment, the City Council of Portiand is behind the plan. Where it has been put into operation in the United States it has re-established hundreds of people who were down and out.

The Victoria Credit Granters' As-

### TWO COLORS ON SINGLE SPRAY

Mrs. A. D. Finlay Has Pink Blossom on Yellow Chrysanthemum Plant

A horticultural freak was brought into The Victoris Daily Times office this morning, it was a spray of chrysanthemums, one pink and the rest creamy yellow, and was from the garden of Mrs. A. D. Finlay, at 2275 Windsor Street.

This extraordinary spray was from an ordinary early-flowering variety of chrysanthemum which, owing to

TRUIT SALE IS

An odd problem dealing with the sale of apples by public auction is in now before Magistrate Jay in the City Police Court in connection with a charge against Pred Smith, auctioneer, alleging he sold fruit which had been seized by the government inspector and marked for detention. While Mr. Smith was preparing for datale, Reuben Randall, government inspector, said the apples were marked with detention tags by him. He placed detention tags on three boxes, which were intended to signify that three groups of boxes had been seized. They were seized because they

were intended to signify asys.

Appointments by the Provincial Government this week include: Freedering to regulations, he said.

Mr. Smith testified the inspector had not informed him of the number of boxes which were under geizure and he had disposed of all but one marked with a tag in a group of ninc.

R. D. Harvey is conducting the government brosecution and when the evidence was concluded to-day the case was remanded until to-morrow morning for judgment.

## Cochrane Named Most Valuable Player In American League

# **SPORTS**

A LTHOUGH THE 1984 world baseball series is now history, there
are still plenty of angles connected
with this year's classic that are interesting. One was the astureness of
Branch Rickey, curator of rare ivory
in the countrywide chain of museums
operated by the championship St.
Louis Cardinals. Rickey may befuddie the average ball player on the
field with correct English and highpowered words, but it has been many
years since he trusted himself to
mingle with athletes on the hoof.
The idea persists that Rickey theorized the Cardinals out of a couple of
pennants, back in the days when the
Red Birds had that first one to win,
but every ball fan knows how he
gave himself che of those treatments
and put Rogers Hornsby in charge of
the athletes.

#### Title Ring Tourney May Be Postponed

#### BILLIARDS

### Dynamic Pilot Of **Detroit Honored** For Second Time

Great Catcher Was Awarded Player Awards in Honors in 1928; Gehringer

#### BABE RUTH IS NOT MENTIONED

Cochrane, the "Iron Mike" who led Detroit out of second division to the pennant in his first season as ringmaster of the Tigers, to-day was named the most valuable player in the American Baseball League for the second time since 1928.

Red Birds had that first one to win, but every ball fan knows how he gave himself che of those treatments and put Rogers Hornsby in charge of the athletes.

That date, June 1, 1925, marked the beginning of the real success of the Cardinal enterprise of corraling the best baseball material available—and jockeying the market.

Ten baseball seasons have gone clicking—better and better year, if you ask the New York Gilants, And the system does not consist merely or buying up all of the hungry young ivery roaming at large.

A large part of the success is due to the canniness of Rickey in choosing the precise moment at which it will do the Cardinals the most good to exchange one bit of ivery which worn for another and better bit which somebody else owns.

The knack lies in picking out the che spoosan of the verge.

Several important members of it are products not of the vaninde ayatem of trapping all the sood young players while they really are young, but of Rickey: equally efficient system of grabbing off somebody else when the world series.

Several important members of the paper of the sward last year, was tenthed and hone of the vaninde ayatem of trapping all the sood young players while they really are young, but of Rickey: equally efficient system of grabbing off somebody else with the libas world series from a choice box Prisch, you doubtless will recall, mad a marked the base hone had been known to have a broken ankle—Rothrock comes back and plays a strong hand for the Cards. Hornsby watched the Box world series from a choice box Prisch, you doubtless will recall, mad a man had in the world series. The White Soc obtained for him one Evar Swanson, who is not likely to be in the American League in 1935.

\*\*\*

The same McGraw, who so kindly presented Prisch to the Cardinals.

The same McGraw, who so kindly presented Prisch to the Cardinals.

The white Soc obtained for him one Evar Swanson, who is not likely to be in the American League in 1935.

Professional

The same McGraw, who so kindly presented Frisch to the Cardinals, may be blamed for Rickey's possession of one William Walker, a better-than-average left-hander in any-body's league. The Giants got for him ——who remembers? It was Gua Mancuso, a pretty fair country catcher, and a couple other guys.

Leo Durocher hit the New York Yankees back around 1928, but that's all he did hit. With seven or eight 350 hitters on the club. Durocher faced an impossible task. He was kept around only because he was a master "jockey" and kept the great batters amused. Other big league clubs also decided Loc couldn't hit the Atlantic Ocean with an oar.

Only Rickey seemed inclined to charge the young man with being a predatory shortstop of a most dangerous variety.

Once Durocher landed in Cincinnati, he was as good as in Rickey's clutchres, Leo moved up to the main house in one of those shuttle transhouse in one of those shuttle transhouse in one of those shuttle transactions, which are so numerous and sections, which are so numerous and sections loss his passing meant to this city.

### By Robert Edgren Orillia Extended To Beat St. Helens

### **Hockey Gossip**

The hockey school innovation, originated by Lester Patrick, at Winnipeg, and approved by amateur authorities, has caught on. There won't be another school this fall as pretentious as the ice ranger schoolroom, but London Tecumsehs, International League champions, plan to hold classes starting Monday.

plan to hold classes starting Monday.

All an amateur has to do to gain admission to Toots Holway's London training camp is present a card of permission from the amateur people. He will be received with open arms by boss Holway and all the other Tecs, because every professional on the London roster is going to assist in giving lessons.

School will open each morning at 9 o'clock. The Tecs hope to discover a prospect or two worth signing; and the amateurs hope to disapring; and the amateurs hope to learn a thing or two worth knowing.

At Galt, Ont., Toronto Maple Lears

Terriers, left their gutted sticks and their pads behind to-day as they took a day off to see Vancouver and district points of interest, after showing some 4,000 British Columbia fans why the easterners hold the Mann Cup.

Terriers, left their gutted sticks and their pads behind to-day as they took a day off to see Vancouver and district points of interest, after showing some 4,000 British Columbia fans why the easterners hold the Mann Cup.

Terriers, left their gutted sticks and their pads behind to-day as they took a day off to see Vancouver and district points of interest, after showing some 4,000 British Columbia fans why the easterners hold the Mann Cup.

Terriers need out St. Helens, Vancouver, yesterday evening, 14 to 13, but it took some Spartan work on the part of Coalle Pete Anthony and his defence to turn the trick against the speedy coast outfit.

Loafing along for the first two periods of the first of a firegame exhibition series, the visitors found themselves on the short end of a 9 to 6 court.

cover a prospect or two worth signing, and the amateurs hope to learn a thing or two worth knowing.

At Galt, Ont., Toronto Maple Leafs opened their training grind this morning with eary setting-up exercises. Dick Irvin's method of getting his, boys in ahape is to keep them outdoors playing golf and soft-ball and such, with only light ice workouts on the side for a few days. It has proved successful in the past, the Leafs got such an early lead in their N.H.L. group last season that first place was conceded them by Christmas.

If there is any question about the potential value to the New York Rangers of defenceman Earl Selbert it doesn't exist in Selbert's mind. The big Ritchener boy is definitely a holdout again. Already he has refrained from signing two contracts the terms must be offered that he is not preparing to go to the Winnipeg training camp until they come along in the mail.

Eddie Gerrard and his St. Louis Eagles, training on the old stamping ground of Ottawa, held two brisk workouts. The former Maroon manager has thirty candidates in camp, and is going to keep most of them under his eye for several days more. Then he will start thinning out the squad.

"Eagles" as a name for the St. Terrier's Dolla, Bill Chestnut and middle at hird the squad.

### Hudson's Bay And **Tommies Victors**

Take Two Wednesday
League Football Encounters; Spencers and Maccabees Play to Draw;
Tommy Musgrave Scoring

Would Ban All
Barnstorming

Taking their second straight victory of the season with a 3 to 2 win over the Navy at the Ath-letic Park, Hudson's Bays yes-2 win over the Navy at the Athletic Park. Budson's Bays yesterday moved out in front of the Wednesday Soccer League race for the Hayward Cup. The Garrison whipped the Outer Wharf Rangers 5 to e at Work Point Barracks to cinch second berth, while the improved Maccabess averted their third defeat in as many starts by holding Spencer's to a 1 to 1 socre in the first game at the Athletic Park.

Tommy Musgrave, the Saturday League's contribution to the Hudson's Bay front line, took the ribbons in the storemen's victory over the Navy, shooting home all three goals, while Robinson, amart centre half for the bluejackets, garnered his team's pair of markers.

Musgrave got his head to a cross from Pish about six minutes from the start of the match to head in the first counter, and then, booted home another about fifteen minutes later when he closed fast to finish a rush Pish had started.

Robinson drove home the rebound from a penalty kick to give the sailors their first goal and set the score at 2 to 1 as the rest interval arrived.

SCORES THIRD

the teams follow:
Hudson's Bay-Baxter, O'Connell.
Wyatt. Williamson. Kennedy, Oakman, Fish. Musgrave, Stewart, Stevens and Richards.
Navy-Mundle, Barr, Hibbert, McDonald, Hutton, Brown, Bennallack.
Marr, Robinson, Walker and Kostulek
TOMMIES WIN EASILY
Walding only delight man. Culture

COMMISS WIN EASILY
Pielding only eight men, Outer
Vharf Rangers proved no match for
the Garrison at Work Point, in spite
it the fact the Tonmies played the
trat half with only ten.
Twenty minutes from the start
tewart scored the Garrison's only
oal of the first half with a high
hot to the corner. In the second half
the Tommles went on a scoring bee,
lling in four more counters, of which
immy Worswick scored three and
tewart the other.
The Rangers turned in a fighting

Stewart the other.

The Rangers turned in a fighting performance but could not break into the win column.

Saunders refereed and the Garrison learn follow:
Garrison — Glendenning, Linsley, Worswick, Wilkinson, Evans, Featherstone, McAllister, Stewart, Miller, Stewards and Cook.

VEAR BEFORE GOAL

WEAK BEFORE COAL

Although they dominated most of
the play, Spencer's falled to show any
outstanding strength in front of the
goal and had to be content with a
one-all draw with Maccabes, who
gained their first point of the season
as the result of the encounter.

A. MacBride passed up a beautiful
chance when he skied over the bar
as Spencer's custodian lay prone on
the ground.

T. Grave opened the scoring shortly
before half-time when he rifled in
the rebound when McBride hit the
crossbar, giving the Maccabes their
only tally.

### Barnstorming

Chicago, Oct. 18.—An absolute han on all barnstorming by major league baseball players was advocated yesterday by President Will Harridge of the American League. President Harridge said action undoubtedly would be taken on the subject at the annual winter meeting. Citing a series of recent mishaps—Jimmy Foxx's injury, that may ruin his career; the unpleasantness at Milwaukee when lrate fans stormed the hax office, demanding their money back because the Deaa brothers failed to pitch as many, innings as advertised, and the soreness of Paul Dean's arm, that may affect his pitching next year — President Harridge said the only thing to do was to prohibit barastorming altogether.

#### BOWLING

Fifteen minutes from the resumption of play Musgrave got through to rifle in his third marker from in front of the net.

In the second half, Robinson made sure with a penalty kick which gave Baxter, between the sticks for the storemen, no chance at all.

The Bay forwards turned in a smart, bustling game. Fish was crossing nicely and the insides were dangerous when they reached the dangerous when they reached the net.

Cuill handled the whistle and histle and

### **Mate Finally Wins Event In England**

Veteran United States Horse Connell Will Captures Challenge Stakes at Newmarket; Solenoid is Second; Bahram Easy Victor in Middle Park Stakes

Middle Park Stakes

Newmarket, Eng., Oct. 18.—A.
C. Bostwick's Mate, a disappointment in previous starts in England this year, to-day won the Challenge Stakes, a six-furiong sprint, by a head from Mrs. J.
V. Rank's high-weighted Solenoid.
It was his first victory of the present trip.

Mate carried only 124 pounds ten less than Solenoid. Lady Ludlow's Greenore, with 131 pounds up, was third. Five others also ran.
The United States campaigner paid off at 10 to 1. Solenoid was 11 to 4 to win and Greenore 15 to 8.
Odds-on favorite, the Aga Khan's good two-year-old colf Bahram easily won the Middle Park Stakes from a small but select band, thereby establishing himself a leading contender for the Derby and other classics next season.

TWO-LENGTH WIN

Bahram, starting at odds of 2 to 7
against, finished the six furiongs of
the great two-year-old race two
lengths in front of A. B. Basset's
Rudolphin, in turn three lengths
ahead of Sir Charles McLeod's Consequential, Six ran.

Rudolphin started at 20 to 1 and
Consequential at 11 to 2.

The winner is a bay colt by Blandford out of Friar's Daughter, and a
half-brother of Windsor Lad, the fine
colt that won the Derby and St.

Leger this year.

### More Selling Sends Wheat Prices Lower

Canadian Press

Winnipeg, Oct. 18.—A burst of selling, entering the pit only a few minutes before the close, swept wheat futures prices down on the Winnipeg Grain Exchange to-day. Fractional advances, established on strong recovery from early declines, were wiped out, values closing ½ to ¾ cent lower.

The close left Tutures near the session's low levels. October at 78, becamber, 78% and May 83 to 83% cents.

It was not believed the government agency was in the market. Foreign buyers again held aloof from Canadian wheat to-day, only a few scattered sales being reported.

Rallying from early setbacks of as much as 1%d, prices at Liverpool closed ¼d lower to ¼d higher. Simi-

#### MORTGAGE RATE LOWER IN EAST DOLLAR GAINS

Canadian Press
Toronto, Oct. 18,—Mortgage money s becoming plentiful at 6 per cent in astern Cenada, a strop of a haif to per cent from the rates prevailing a recent years, the Canadian Press arns from parties representing Tononto holders of funds.

Our representative said: "There to

seastern Canada a strop of a half to 1 per cent from the rates prevailing in recent years, the Canadian Press learns from parties representing Toronto holders of funds.

One representative said: "There is still some uncertainty as to moratorium legislation, which is keeping funds away from investments in mortgages, which would otherwise be seeking this form of investment." Loans were said to have been put through recently at rates as low as \$3\%\ and \$5\%\ per cent, but in these tases the security was classed as particularly good.

**BOND MARKET** 

New York, Oct. 18 (Canadian Press).

—Bond prices moved irregularly to-day. U. S. treasury issues were firm, with losses up to 7-32nds of a point, while foreign government obligations displayed some strength. Corporate issues were marked by interest in oil bonds. Texas Corporatin 5s advanced a shade, Phillips Petroleum 5%s and Shell Union 5s held unchanged.

Ralls sagged fractionally, while utilities and industrials were steady to a little higher.

#### JUST ANOTHER LITTLE TRAFFIC DELAY

### Passengers Watch Seaplane Mishap

One Thousand People Aboard Ss. Washington Watch From Decks as Five Survivors Picked Up By Ship's Lifeboat

The tragedy, which occurred yester-ymorning 326 miles off Nantucket, maxed an exciting race between x Movie Tone and Paramount News el to show films of the Marsellies assination, which their represen-tives were bringing to the United tea.

The Fox plane, piloted by Marion fravenberg, was the first to arrive. It was sighted at 7.15 a.m.

Capt. George Fried went very alowly, railing a tow-line with a bag consaining the film, which the plane was o grapple. The plane's grapple, owever, was carried away, whereupon he pilot attempted to land on the rater about 308 yards from the ship. The aircraft's right pontoon rashed and it immediately started to mk.

sink.
There was a heavy swell and the
1,000 eye-witnesses suffered agonies
watching the six tiny figures sliding
about the rapidly submerging wreckage while the ship's boat, under Chief
Officer Ralph Dooley, labored through
rough seas to the scene.
The five survivors boarded the ship
unscathed but Mechanic Henry Johnson of Brooklyn, N.Y., was lost. His
flying suit dragged him down.

#### Salvage Tug Fights Gale

Hongkong, Oct. 18.—The salvage tug Tai-Koo, with six Europeans and ninety Chinese aboard, was located yesterday by H.M.S. Adventure. The tug was limping along in a howling gale 360 miles off Tourane.

Caught by a typhoon during an inspection trip to the beached Ss. City of Cambridge on Pratas Reef, the Tai-Koo's engines were partially disabled and her coal nearly exhausted. She had turned and fled southward to escape the typhoon, wirelessing for help.

### HERE TO-DAY

Ms. Damsterdyk Brings General Cargo and Tourist Passengers to Victoria

Bringing cargo from Holland, England, Central America and California, the Dutch motorship Damsterdyk, of the Holland-America Line, reached the Ogden Point plers this morning at 7 o'clock, Capt. A. Filippo, master of the ship, reported a good voyage all the way from London.

For this port the Damsterdyk had eighty tons of general cargo, including 400 stems of bananas from Central America and 600 boxes of oranges, lemons and grapefruit from southern California,

Before proceeding to Vancouver around noon the Damsterdyk took aboard a parcel of-locally frozen fish for the London market.

Passengers aboard the liner this morning included: Miss Emily Morrish, returning to her home in Vancouver from England; Mrs. K. Domo, Miss Julia Domo, Mrs. W. S. Freeman and Miss C. M. Freeman, California tourists, making the round trip with the ship. The passenger accommodation of the liner was filled to capacity when she left London five weeks ago, but the majority of the travelers disembarked at California ports last week.

London, Midland and Scottish Railway Officials May Take Trade From Province

Saint John, N.B., Oct. 18. — Prospects of purchasing railroad ties in New Brunswick are being investigated by W. J. Manciark and J. W. Melville, officials of the London, Midland and Scottish Railway, who arrived here yesterday from Montreal. Mr. Manciark and Mr. Melville said the company they represented the compan

Famous Aviator to Leave Brisbane Saturday and Fly to California Via Suva

Gan Francisco, Oct. 18.—Arthur H.
O'Connor of the Australian Fress
Bureau announced here to-day he
had been informed that Wing-Commander Sir Charles Kingsford-Smith
would take off from Brisbane on a
transpacific flight Saturday and expected to land in California Tuesday,
O'Connor said Kingsford-Smith,
who made the westward Pacific flight
in his famed Southern Cross several
years ago, would make the flight in
three hops, to Suva. Flii, to Honolulu and to either San Francisco or
Los Angeles.

His co-pilot will be Capt. P. G.
Taylor, and they will fly in the Lady
Southern Cross, a Lockheed-Altair.
The hop is approximately 7,000 miles
and takes nineteen days by boot.

O'Connor said he had also been

Suva, Fiji Islands, Octo. 18.—Suva, capital city of the Fiji Islands, made preparations to-day for the arrival saturday of Wing-Commander Sir Charles Kingsford-Smith on his projected transpacific flight from Brisbane, Australia, to California.

Dane, Australia, to Camrorns,
Word was received here that Kingsford-Smith expects to arrive about 5.
pm. Saturday.
The distance from Brisbane to
Structure is approximately 1,828 miles,
passenger steamers requiring about
five days for the voyage.

Vessel Founders With Fish Cargo

St. John's, Niid., Oct. 18.—Driven to their boats after manning the pumps for hours, the crew of the Newfoundland schooner Alian saw their vessel founder and carry a full cargo of fish to the bottom as they rowed to safety yesterday.

The schooner was bound for St. John's from the Labrador-ocest when she sprang a leak. Pumping steadily, the crew headed the vessel toward the Catalina coast with hopes of saving their big catch of cod.

But the vessel filled quickly and when still a few miles off Burnt Point the men took to their boats. The crew reached the Catalina coast safely.

#### Basketball in Net Played at Nanaimo

vince. Canadian basketball cham-pions, proved much superior to the local Galahads here yesterday even-ing in the first hoop game to be played in a net, winning by a score of 64 to 37.

The game took the fancy of sev-eral hundred speciators who crowded the pygmy pavillox. It was fast and anappy, the whistle being blown only twenty-nine times, seventeen in the first and twelve in the second half.

### **GRAIN EXPORTS SHOW INCREASE**

you never know when you may have to milk, do you? So I showed him how, just pulling down and letting go with a snap, and I tried to hit and I tried to hit meases, but it didn't quite, and I tried to hit where into his eye.

"But he learned to milk all right, just lying down on the barn floor and pulling hard and letting go with a snap, but the old red cow, she didn't seem to like it much because she's very fussy, you know, oh, very fussy. And when Mr. Pudbury cape into the barn and found my sill little brother lying there and pulling hard and letting go with a snap, he seemed pretty cranky about something so we went away from there. But my brother knows now that milk doesn't come out of bottles. Oh, yes, we'll teach him things, you know, gradually."

decent scale of relate the trace our need, at least we can educate our children to make a better job of it in their generation, and to do so we must look after them whilst they are learning. Proper heating is every bit as important as free milk for those whose parents are compelled to send undernourished children to school.

The municipal council does not control the expenditure of school board moneys, as intimated by your correspondent.

I have made some considerable private investigation into the matter of the heating plant, and am convinced that the school board has made an excellent choice from points of both finance and service to be performed.

I believe it is not necessary to argue the point that a new furnace was deeded. Also the scholastic record of the school is well worthy of the best of encouragement.

The relief allowance of \$16.44 per month, regardless of the number of

By DR. MORRIS FISHBEIN

With the coming of cold weather, pains in the back seem to be more frequent.

The first thing to find out about a pain in back is its cause. In some instances such pains are due to sudden strain caused by lifting heavy objects.

In many cases, however, the pain develops as result of infection of the infection or the uninary tract, such the back may be due to some disturbance.

In this portion of the body.

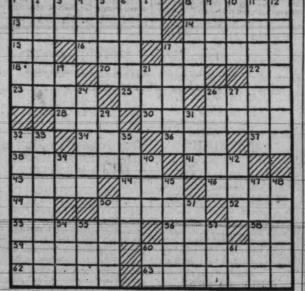

There are many instances in which pains in the back are due to flat feet, shortening of a limb or some other cause which throws the wrong kind of strain on the back itself.

If any source of infection exists in the body, such as the teeth, the insection ought to be cleared uplain in the back, the situation may result in a secondary infection.

Sometimes, when the pain in the

and narcotics, and should not be taken except under advice of a physician.

There also are, as everybody knows, various types of applications which can be put on and which help to relieve the pain. Liments that are stimulating and heat in various forms are particularly useful.

More recently it has been found that injections of certain local anesthetic will stop the pain in the inflamed area, and in very severe cases this method is sometimes used.

Heat may be applied to painful areas by use of hot water bottles, hot packs, heat lamps or the electrical pad. It has not been found that ultra-violet rays have any more value for pains in the back than any of the usual forms of heat lamps giving only the infra-red rays.

So isn't it wise when other way fail to go to MacFarlane and Vancouver Drug Stores, who say, "No matter what kind of Piles you have, one bottle of HEM-ROID tablets must show you the safe, clean way to get indoor polarity of the mater what kind of Piles you have, one bottle of HEM-ROID tablets must show you the safe, clean way to get matter what kind of Piles you have, and to be provide the mater what kind of Piles you have, and to be provide the pain to the relieve what kind of Piles you have, and the brow you the safe, clean way to get and that injections of certain local anesthetic will stop the pain in the inflamed area, and in very severe cases this method is sometimes used.
